This spacious split ranch design is open and inviting. The centerpiece of the home is the large great room with fireplace. The kitchen is well designed to provide plenty of work and storage space. The breakfast area is a veritable 4 season room and is bathed in natural light year round.

The great room features a vaulted ceiling. The master suite features a walk-in closet and private bath with his and hers vanities.

The dining room can be closed off for privacy or for use as a home office.

The two remaining bedrooms are placed on the opposite side of the home for privacy.

The home is complete with a 2 car garage and covered front porch.
